

ANKIT PRADHAN

ELECTRICAL ENGINEER

Electrical Engineering student passionate about Artificial Intelligence, Machine Learning, and the Internet of Things (IoT). Enjoy developing innovative projects that solve real-world problems by combining intelligent software with smart hardware systems. Motivated by curiosity for emerging technologies to continuously learn, experiment, and build impactful solutions.

EDUCATION

B.Tech in Electrical Engineering	2023 - Present
Synergy Institute of Engineering and Technology	SGPA: 8.64
Higher Secondary Schooling (Science)	Passed 2023
KIIT Higher Secondary School, Patia	1st Div (463)

PROJECTS

Smart Plant Monitoring & Irrigation	Arduino ESP8266
- Developed an IoT-based system to monitor soil moisture levels. - Automatically controlled irrigation to ensure optimal water supply. - Reduced water wastage and improved plant health through automation.	
Smart Home Automation System	ESP32 Wi-Fi
- Designed a smart home automation system to control household appliances. - Implemented remote control for lights and fans via a mobile application.	
Smart Street Light System	Arduino LDR PIR
- Built an intelligent system that adjusts lights based on ambient conditions. - Integrated motion detection to reduce energy consumption.	

EXPERIENCE / INTERNSHIP

Offline Internships (PLC & AI/ML)	Recent
- Worked on industrial automation concepts, ladder logic, and control systems. - Gained hands-on experience in machine learning algorithms. - Trained custom AI models and designed structural layout automation parameters.	

DECLARATION
